cantilever paper table · with modular wedge tops

cantilever paper tables flat pack and expand to create standing and sitting height interconnectable, flexible table bases joined together magnetically to create almost any size and shape of table you would like!

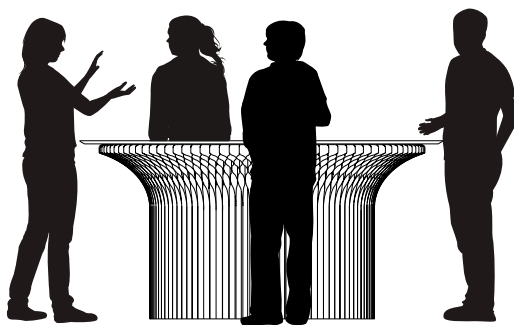

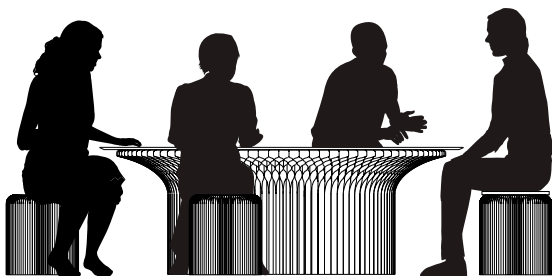

Modular wedge tops, made from formaldehyde-free MDF with clear low sheen acrylic polyurethane finish, join with simple connectors and sit on the flexible honeycomb paper bases. No tools are needed and reconfiguration is quick and easy.

The sitting height version of cantilever paper table is perfectly accompanied by molo's 18" x 16"Ø (455mm x 405mmØ) softseating fanning stools, which compress to be easily stored like books on a shelf.

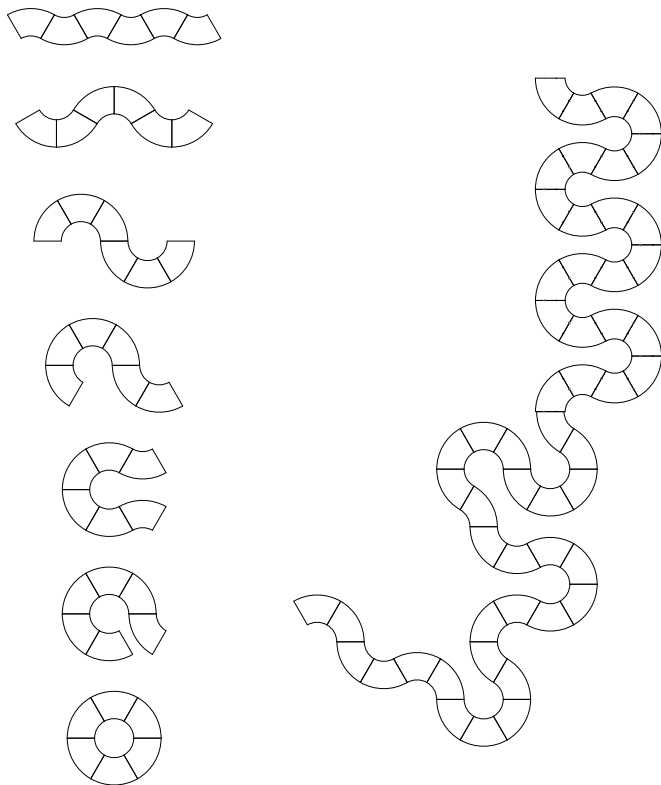

Each cantilever paper table base may also be joined magnetically to itself, creating a round shape table that can be paired with a 47" (1200mm)Ø top (available separately, please ask for details).

fire rating documents available

design by Stephanie Forsythe + Todd MacAllen

sold in sets of 6 modular wedge tops with a flexible base - magnetically connect as many sets as you wish
